

Dear Potential Sponsor,

Hack Nimbus cordially invites you to attend our inaugural cloud-themed hackathon. Our mission is to attract top talent from the Dulles Tech Corridor and give them the resources to learn and build together. Opening its doors to more than 100 developers, engineers, and creators, Hack Nimbus 2019 will be one of the region's first overnight innovation events of its kind for professionals. This hackathon will be an opportunity for networking and tech evangelism for area IT professionals.

Hack Nimbus will take place on March 16, 2019 at the collaborative MakeOffices space in Reston. The area's top developers, designers, builders, and thinkers will come together for 24 hours to build websites, apps, and other projects leveraging various Cloud technologies. Sponsoring Hack Nimbus gives you the opportunity to talk to, collaborate with, and recruit these talented individuals in the local cloud-tech community. Sponsors are given the opportunity to:

-  Foster professional relationships and recruit through mentorship.
-  Demo their APIs & Cloud services for attendee project integration.
-  Evangelize and facilitate the use of their technology through workshops.
-  Promote the company brand.

The next page includes details on how you can contribute to the success of Hack Nimbus 2019. Please let us know if you are interested in becoming an official Hack Nimbus sponsor. If you have any further questions, please reach out to us through our email [team@hacknimbus.com](mailto:team@hacknimbus.com).

Thank you,

The Hack Nimbus Team
